

BLUE CROSS BLUE SHIELD (BCBS) VISION CARE OVERVIEW

BCBS is a major U.S. insurance carrier offering various health insurance plans to members of group or individual insurance plans, Medicare beneficiaries, and federal employees.

BCBS plans cover various types of eye care, including annual eye exams, prescription eyeglasses, contact lenses, screenings for eye conditions, cataract surgery, and LASIK eye surgery.

BCBS Medicare Advantage plans may include routine vision exams, frames, eyeglass lenses, contact lenses, sunglasses, and non-prescription glasses at discounted rates.

BCBS plans prioritize lower premiums but offer limited allowances for frames and lenses.

When selecting a BCBS plan, consider your vision needs, as some plans prioritize lower premiums but offer limited allowances.

BCBS recognizes the importance of vision care and offers various options to help maintain healthy eyes.
